**Gender Audit: An Overview**

A gender audit is a tool to assess and ensure the institutionalization of gender equality in any organizations, including in their policies, programmes, projects and/or provision of services, structures, proceedings and budgets. The basic assumption of gender audit is to find out impact of public policies on men and women. It is also an attempt to investigate whether the institute has maintained a good gender balance. It tries to see whether institute follows government rules, policies and actions formulated for up-gradation of women in society. The purpose of gender audit is to lead to changes in public policy that contribute to an increase in gender equality. Without gender audit is done, one cannot answer the question: whether the Institution is taking efforts for improvement of the status of women in general and giving adequate representation to women in particular?

The second reason for doing gender audit is that institute conducts women's awareness programs on women's rights and claims and also their access to resources and opportunities. Gender audit allows institution to set its own houses in order, and change aspects of the organizational culture which discriminate against women staff and women beneficiaries. Though there is no specific method for carrying out a gender audit, international organizations use two main approaches: participatory in gender audit and the gender integration framework. A gender audit usually includes two dimensions as follows:

**An internal audit:** It refers to how an organization fosters gender equality internally within its organizational, managerial structure and internal work and whether these contribute to gender equality in the organization. An internal gender audit monitors and assesses the relative progress made in gender mainstreaming, contributes to capacity building and collective organizational ownership for gender equality initiatives, and sharpens organizational learning on gender.

**An external audit:** It evaluates to what extent gender integration fosters the inclusion of, and benefits to women and men involved in or affected by the organization's policies, programs, projects or services provided. When applied to policies, programmes, projects or services, a gender audit starts by exploring to what extent gender equality is mainstreamed in high-level policy objectives and priorities, and further assesses to what extent policy intentions are actually carried out in specific initiatives (e.g. programmes, projects, services). At the planning level, a gender audit analyses whether there are gender-specific objectives or if gender is mainstreamed in the general objectives of the policy in order to guarantee that they contribute to close gender gaps, ensure that women and men benefit equally or in accordance with their gender needs and that inequalities are not perpetuated. Similarly, gender audit goes on to analyze how gender is main streamed in to the implementation phase of the policy, programme

or project. Finally, a gender audit of the monitoring and evaluation phase investigates whether targets and indicators include a gender perspective both in terms of sex-disaggregated data and progress towards gender equality.

Internal Quality Assurance Cell of Arts, Science and Commerce College, Rahata, conducted Gender audit by forming committee of internal and external members. The audit was conducted in 28<sup>th</sup> May 2023.

**Constitution of Gender Audit Committee:**

S.N.	Name	Designation	Institution
1.	Dr. H. R. Aher	Chairman (External)	Principal, ASC College, Kolhar
2.	Prof. Dr. S. S. Gholap	Vice –Chairman	Principal, ASC College, Rahata.

5.	Dr. V. P. Bhalekar	Internal Member	IQAC Coordinator. ASC College, Rahata.

The Committee intended to scrutinize the gender balance within the institution and its practices and focused on the following objectives:

**Objectives of the Gender Audit:**

- The institute shall take effective measures for the safety and security of all genders.
- There must be an accessible, active, unbiased and confidential Grievance Redressal Cell
- There shall not be any kind of discrimination on the basis of gender.
- To develop and enhance the self-confidence and self-esteem of girl students, women faculty and staff in the college.
- Overall personality development programs shall be organized, which will develop confidence in the members of the institution.
- To conduct self-defense programs for girl
- Organizing programs to build confidence and instill leadership qualities among the girl students.
- To join hands with IQAC, Anti-ragging Committee, Anti-Sexual harassment Committee, Discipline Committee and Women Empowerment Cell for creation of

gender sensitization.

- The Audit would enable the organization to identify the impact of gender relations on their agency's culture, processes, programs and organizational performance and vice versa.
- To know about the gender balance in the college.
- To know about gender perception in the campus.
- To reflect and etch out a road map for gender action.

#### **Gender Audit Methods:**

The gender audit was conducted within the broad framework called the Gender Integration Framework (GIF), which proposes that transformation can only follow when four organizational dimensions are equipped for gender integration. These four elements are political will, technical capacity, accountability and organizational culture.

**The Political Will:** Means the initiatives in which the leadership within the college at different levels use their branches of the tree and are also required in equal measure to successfully integrate gender, position of power to communicate and demonstrate their support, leadership, enthusiasm for and commitment to working toward gender equality in the college.

**Technical Capacity:** Level of ability, qualifications and skills individuals in an organization need to carry out the practical aspects of gender integration for enhanced program quality, and level of institutionalization of gender equitable organizational processes.

**Accountability:** Mechanisms by which a college determines the extent to which it is "walking the talk" in terms of integrating gender equality in its programs and organizational structures.

**Organizational Culture:** Norms, customs, beliefs and codes of behavior in an organization that support gender equality - how people relate, what are seen as acceptable ideas, how people are expected to behave and what behaviors are rewarded.

#### **Gender Sensitive Features:**

Gender sensitivity refers to an attempt to encounter and accept people without presumptions. Gender sensitive approach aims at opening, reconstructing and broadening expectations and behavioral models related to gender. Gender sensitive structures respond equally to men and women's specific interests without any presumption based on outdated views. Gender became a major parameter for institutional governance, the institutional leaders stepped forward taking steps to ensure gender equality. An audit of gender sensitive

features in the Institution yielded the following notable points:

- Basic sanitation facility in the form of separate toilets for the students and staff is provided in the common area. Separate toilets for male and female faculty are available.
- There is a Ladies Common Room provided on the 2nd Floor of the main building.
- There are CCTV monitoring devices installed at different locations within the campus especially within the Library, classroom and major gates.
- There is a Women's Empowerment Cell that conducts Gender Sensitization programmes regularly for the students.

#### **Gender Balance in the Institution:**

Gender balance means the existence of a fair ratio of male and female representation within the institution in terms of number of students in the various programmes as well as within the staff structure. The rationale is that traditionally women have lesser access to resources and opportunities due to the social structures which act as inhibitors to access. This results in lesser capability among women which in turn produces a snowball effect on their empowerment and access to development initiatives.

Gender Audit Team reviewed and analyzed the overall function of the institute. Based on analysis, committee appreciated the overall operating of the institute which provides equal opportunities to both gender in all spheres like academic, administration and governance. Gender equity requires that girls and women be provided with a full range of activities and programs choices that meet their needs, interests and experiences. The institute always focuses on students' academic performance along with their overall personality development. Observing gender equality, the girls are provided with various facilities. The lectures of eminent personalities are organized on various topics to develop overall personality. Various programs are held on Health and Hygiene, Gender Sensitization, Awareness & Legal Aspects of Sexual Abuse, Sexual Harassment of Women at Workplace etc. Girls are made aware of laws and by-laws by organizing lectures of eminent judges, lawyers, social workers etc. Anti-ragging Committee, Anti-Sexual Harassment Committee and Grievance Redressal Committee have been formed in the college.

**Observations:**

The institute constantly strives to work for the benefit of female staff and students. The institution recognizes that women and men have different needs and power. These differences should be identified and addressed in a manner that rectifies the imbalances between the genders. It may include equal treatment, or treatment that is different but considered equivalent in terms of rights, benefits, obligations and opportunities. The institute not only conducts activities to make the female students and staff aware about gender sensitization but motivates them to live in a dignified manner and due self- respect.

It is observed that representation of girls is reflecting in academics and governance. Though the strength of girl students is less compared to male but they are actively involved in overall functioning of the institute. Though located in rural area, girls are enrolling for higher education. Further it has been observed that the success rate among girl students is more than boys. They are taking interest in participating in all co- curricular and extra-curricular activities including cultural programmes, sport organized by the institution. It is also notable that the percentage of female teaching faculty has been increasing.

The analysis shows that gender equity goals and objectives are included in all the policies and overall function of the institute. While communicating with female staff and students, it is observed that there is no gender discrimination in the campus. The committee pointed out that gender equality and gender sensitivity is encouraged by management and staff of the institute and the behavior of staff were cordial. It is found that the institute has a lot of strengths and opportunities to develop good gender balance. The weaknesses can be overcome with gradual changes in value set up.

### REPORT

12/11/2022

Women Empowerment and Prevention of Sexual Harassment Cell of Arts, Science and Commerce College, Rahata has organized a guest lecture for the students of Arts, Science and Commerce faculty on Saturday, November 12, 2022 at 9.30 am. The theme of the Guest Lecture was **"Gender Equality"**. In the Session Dr. Ainur Shaikh, HoD, Hindi and Member of Women Empowerment and Prevention of Sexual Harassment Cell welcomed all the participants and gave a brief introduction of the theme of Guest Lecture. Dr. Jayshree Dighe, Coordinator of Women Empowerment and Prevention of Sexual Harassment Cell gave a brief introduction of the **resource person Dr. Manoj Patil, Assistant Professor and HoD, Philosophy, P.V.P. College Loni**. The resource person **Dr. Manoj Patil** was felicitated by **Dr. Suresh Pulate**, the Vice Principal of the college.

The resource person Dr. Manoj Patil delivered his lecture on Gender Equality. He spoke about **various things about** Gender Equality. Dr. Manoj Patil showed a valuable path on the issue of equality between men and women. Patil said today we are entering the 21st century, but is there equality between men and women? Should there be equality between men and women? If there is equality, how should it be? You get to see various thoughts regarding this. It was from this question that a great revolution took place in the western country and feminism was born from it. Woman were also given all kinds of rights such as freedom, equality, education, political, social and economic and even today, various kinds

of question marks are raised on feminism. So it still needs some improvements. Now a days some days are celebrated in the name of women eg. like International Women's Day, Mother's Day, are celebrated. There is no need for all these days because this day is like a custody. Therefore, it is not right to respect women for one day and keep them working for the rest of the days. What is equality between men and women? To provide equal opportunities to all women like men, to provide them with equal resources, to give them equal opportunities to develop their future, to give them economic partnership, social partnership, to involve them in the decision-making process at home, to give them equal opportunities in education, to achieve mutual consent. , to discuss every subject among each other, giving the right to all means equality between men and women.

Honourable Vice Principal of the college Dr. Suresh Pulate presided over the program for this program. In his speech, he said that the students should take care of the important things regarding equality between men and women. Students should develop their personality by participating in various programs held in the college. There is no gender inequality or gender discrimination in the college. Students should increase their thinking level.

Total 139 participants were benefitted by the lecture, Prof. Pranali Bothe member of the Women Empowerment and Prevention of Sexual Harassment Cell proposed vote of thanks . Dr. Archana Antre was the anchored the program.

## **"Gender Equality Programme"- 2018-19**

### **Report**

Art's Science and Commerce College, Rahata has organized a programme on 'Gender Equality' on 10<sup>th</sup> January 2019. Principal of the College Dr. B. K. Salalkar presided the programme. At the beginning President and Chief Guest Principal Mangala Joshi lightened the lamp. Then the principal has welcomed the chief guest with boquette and shawl.

Few girls and boys express their views about gender equality. Female students share their experience about treatment given at home and in the society. Male students were agreed with the experiences shared by female students and shown their ready to change this injustice with girls. Then chief guest of the function expressed their views. In her speech she highlighted the real picture about gender equality. She said India's progress towards gender equality, measured by its position on rankings such as the Gender Development Index has been disappointing even though rapid growth of economics.

Further, she said that, crimes against women show upward trend which is not good sign. Crimes like rapes, honour killing, and dowry are disturbing causes in the society. Our Indian society plays an important role in perpetuating gender inequality and ideas about gender appropriate behaviour. A culturally ingrained parental preference for sons originating from their importance as caregivers for parents in old age is linked to poorer consequences for daughters. Further she suggested the change should start from us. All the students were agreeing with her suggestions. All participants had taken an oath about discrimination of gender inequality.

In presidential speech Dr. B. K. Salalkar focused on results in dowry relate violence against women by their husbands and in-laws if the dowry is considered insufficient. These

practices create incentives for parents not to have girl children or to invest less in girls' health and education. Such parental preferences are reflected in increasingly masculine sex ratios in India. In 2011, there were 919 girls under age six per 1000 boys, despite sex determination being outlawed in India. Further he suggested that there is clearly a need for policy initiatives to empower women as gender disparities in india persist even against the backdrop of economic growth. For this program 65 boys and 80 girls were present.

To conclude the programme Dr. Mrs. Gandhi Anupama gave vote of thanks.
